Pink Ribbon Zippered Pouch

created by Kevin Conley

materials and tools

- OESD Collection #12935, "Pink Ribbon Awareness"
- Embroidery system
- Large Oval Hoop
- Sewing machine
- ½ yard pink fabric
- 5" x 9" piece of clear vinyl
- 12"-long zipper
- OESD Bobbin Thread
- Isacord Embroidery Thread
- All-purpose thread
- Water-soluble fabric marker
- OESD Ultra Clean & Tear Stabilizer
- 505 Temporary Fabric Adhesive
- 606 Fusible Adhesive Spray
- Organ Embroidery Needles
- Embroidery foot (BERNINA Teardrop Embroidery Foot #26)
- All-purpose foot (BERNINA Clear Foot #34/34C/34D or Reverse Pattern Foot #1/1C/1D)
- Non-stick foot (BERNINA Non-Stick Zigzag Foot #52/52C/52D)

Use designs from the OESD "Pink Ribbon Awareness" Collection #12035 to create a special gift for someone who may need encouragement. OESD, Benartex, Brewer, and BERNINA are proud supporters of the Susan G. Komen Foundation.

step one

Cutting:

- One 7" x 11" fabric rectangle for the front
- One 5" x 9" fabric rectangle for the front lining
- Two 9" x 12" fabric rectangles for the back

Door Organizer

step two

Embroider the Cover:

- Find the vertical center of the 7" x 11" piece of fabric by folding it in fourths and finger-pressing the folds. Unfold the rectangle.
- Spray one side of a hoop-sized piece of Ultra Clean & Tear Stabilizer with 505 Temporary Fabric Adhesive. Position it on the back of the fabric rectangle.
- Hoop the two layers as one, keeping the horizontal and vertical crease lines straight in the hoop. Attach the hoop to the embroidery machine.
- Open design #NB816 — the butterfly. Insert design #NB812 — Hope — and size it down approximately 50%. Arrange the designs on the screen as shown, within and area about 4" x 8".

step three

- Embroider the combined design.

Note: Stitch on a piece of scrap fabric and adjust the stitch density as needed before stitching your project fabric.

- Remove the hoop from the machine and the fabric from the hoop. Remove the excess stabilizer from the back and clip the thread tails.

step four

- Trim the embroidered rectangle to 5" x 9".
- Spray the wrong side of the embroidered and plain 5" x 9" rectangles with 606 Fusible Spray. Place the two rectangles wrong sides together and fuse them following the manufacturer's recommendations.
- Repeat for the two 9" x 12" rectangles.

Door Organizer

step five

- Place the embroidered piece right side up on a flat surface. Center the right side of the zipper along the top edge, right sides together and edges even. Allow an equal amount of zipper to extend at both sides.
- Stitch close to the zipper teeth.
- Fold the seam allowances just formed to the wrong side and finger press. Edgestitch the seam close to the zipper, through all layers.
- Place the fused 9" x 11" rectangle on a flat surface. Position the other side of the zipper along the 9" side of the rectangle, right sides together and edges even. Align the sides of the 9" x 11" rectangle with the sides of the 5" x 9" embroidered piece. (The embroidered piece will be face down.)
- Stitch close to the zipper teeth, finger press the seam allowances to the wrong side, and edgestitch close to the zipper.

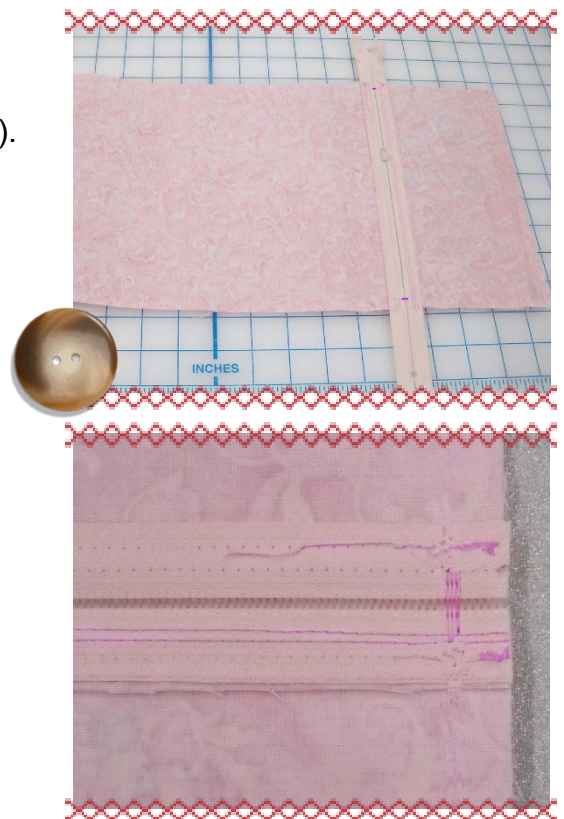

step six

- Open the zipper about halfway (this is very important as the bag will be turned right side out through this opening).

step seven

- Bar tack each end of the zipper through all layers about 1/4" from each end. Trim off the zipper ends.

Door Organizer

step eight

- Use the non-stick foot to stitch the 5" x 9" rectangle of vinyl to the lower 9" edge of the embroidered rectangle with right sides together.
- Stitch the short side of the fused 9" x 12" piece of fabric (the bag back) to the other side of the vinyl rectangle, forming a tube.

step nine

- Stitch both sides of the bag with a $\frac{3}{8}$ " seam allowance.
- Trim the corners.
- Turn the bag right side out through the zipper opening.

step ten

- Topstitch approximately $\frac{1}{4}$ " from all four sides.
