Airplane Pillow Cover

Whether you want to surprise a child with a travel accessory featuring their favorite super hero or cartoon character, or you'd prefer to rest your sleepy head on something clean during long flights, this pillowcase pattern is for you. Made of flannel for softness with a contrasting mitered border for style, this case fits the pillows supplied by airplane companies.

materials and tools

- Two 12" x 16" rectangles of flannel
- $\frac{5}{8}$ yard of cotton print fabric for borders, cut into eight 2½" by width of fabric strips (approximately 43" wide)
- Two 4" x 12" rectangles of cotton print
- Coordinating thread
- Scissors
- Pins
- Clear quilter's ruler
- Pencil or chalk marker
- Quarter-inch foot (BERNINA Patchwork Foot #37)
- Edgestitch foot (BERNINA Edgestitch Foot #10)

step one

1. Prepare the back of the pillow cover by cutting the 12" x 16" flannel rectangle into two pieces, one 6" x 12" rectangle and one 10" x 12" rectangle.
2. Pin one 4" x 12" print fabric rectangle to a long edge of each flannel piece, right sides together. Stitch.

Airplane Pillow Cover

step two

- Press the seam allowances toward the print fabric.
- Turn under ½" along the long unfinished edge of each print border strip.

step three

- Fold the trim in half, with enough overlap for the folded edge to just hide the seam line stitches. Pin in place.
- Turn your work over and pin from the front, removing the pins from the back.
- Attach Edgestitch Foot #10 to your machine and "Stitch in the ditch" to secure the folded edge in place.
- Repeat for the second pillow back piece.

step four

- Overlap the two pillow cover back pieces about 2", with the narrow piece over the wider piece as shown. Pin to secure.
