

# Diamonds Quilting Month 2

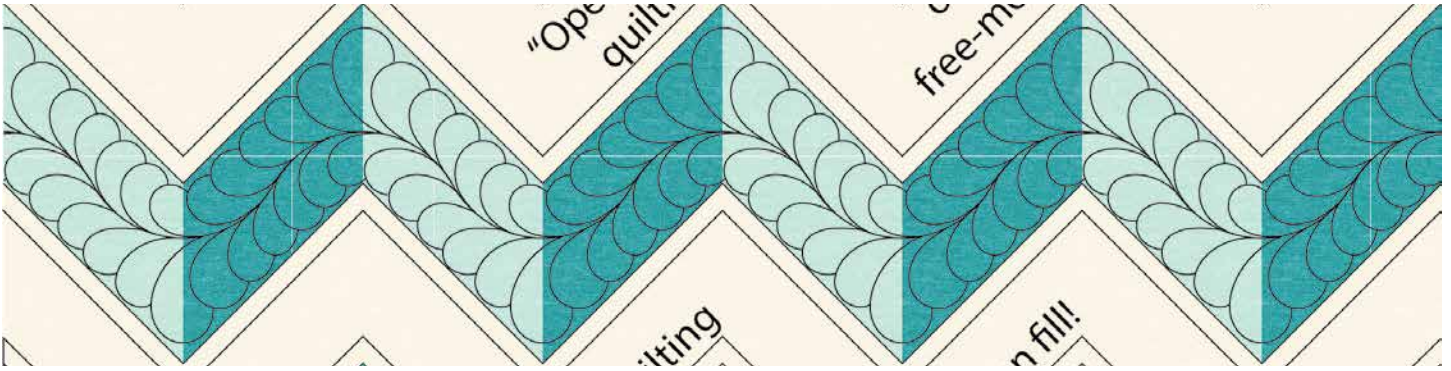

AMANDA *AM* MURPHY

1. Change to BSR2 and the Zigzag thread (Aurifil #5006). Use the marking tool of your choice to mark the centers of the Zigzag blocks as shown. Quilt the feather spine using my 8" Every Curve ruler, aligning it as shown and flipping it up and down as you continue across the row.

2. Quilt the feather plumes in the stitch regulation mode of your choice in both zigzag rows. *Watch the video on [weallsew.com](http://weallsew.com) to see how the sequence I use to do this.*

3. Change to the Feature Feather Print thread (Aurifil #2885) and free-motion quilt over the Feather fabric in the stitch regulation mode of your choice, in both borders and the center diamonds. *Hint: the optional laser light in the "always on" position available on the Q Series can be particularly helpful with this.*
