

we all *sew*

made to create **BERNINA**

created by Mimi G.

DIY Tablet Sleeve

Protect your shiny new tech toy from dings and scratches. With a bit of felt and a few seams your tablet will have a protective sleeve that you can embellish to reflect your style.

Watch Mimi's video: It's like inviting a friend to your home to sew along with you.

Two sizes to choose from: Mini and Large.

materials and tools

- Printed patterns from pages 2-5
- ½ yard of felt in main color
- ½ yard of felt in contrast color
- Flap-size piece of fusible interfacing
- Coordinating thread
- Chalk pencil or fabric marker
- Tape
- Paper scissors
- Fabric shears
- Pinking shears
- Iron and ironing surface
- All-purpose foot (BERNINA Reverse Pattern Foot #1/1C/1D)

Tip: Substitute any sturdy fabric for the felt in this project. Canvas, denim, leather, suede, and fleece are good choices.

Tip: Use coordinating thread to help hide any uneven stitching, or use a high-contrast color to add interest.
